Mumbai, 1st January 2025

Operational Update- 9MFY25

- DRI production at 238k tonnes; up 22% YoY 
- Iron ore at 8.6 mn tonnes, up 5% YoY 

Lloyds Metals and Energy Limited has reported its highest-ever nine months ended iron ore production, achieving an impressive 8.6 million tonnes, marking a 5 % year-on-year (YoY) increase. The company's Direct Reduced Iron (DRI) production also reached 238k tonnes, reflecting a 22% YoY growth. The DRI production has been witnessing strong traction, with December registering as the best production ever. The DRI units are running at near full capacity utilisation rates.

The break-up of production (provisional) is as follows:

Production	9MFY25	9MFY24	FY24
DRI (tonnes)	2,38,433	1,96,019	2,61,984
Iron Ore (Mn Tonnes)	8.6	8.2	10

About Lloyds Metals & Energy Limited

Lloyds Metals and Energy Limited (“**LMEL**”), incorporated in 1977, is a Direct Reduced Iron (“**DRI**”) manufacturer and is the largest merchant iron ore miner in Maharashtra, India. It has a 3,40,000TPA capacity for Direct Reduced Iron (“**DRI**”) across two Districts in Maharashtra and 34MW waste heat recovery based (“**WHRB**”) power plant. LMEL has a current capacity of 10 MTPA of iron ore at Surjagarh Village, Gadchiroli district in Maharashtra. With its iron ore mine advantageous location, it's been able to access all the key markets across pan India. Driven by rich cultural values and decades of experience, we constantly seek new ways to revolutionise mining and ironmaking. Sustainability comes as a priority to our organisation. We relentlessly benchmark our business vision and governance systems, manufacturing and sales processes, and even our customer and community engagement initiatives against global best-in-class standards.
